

Execution Report

Executive Summary

Intent: Hey would love to know the current ai companies top 5 that i can invest in with high growth

Plan Overview

- 1. Search for a list of top AI companies to invest in, focusing on those with high growth potential. Prioritize reputable financial and tech news sources. Ignore articles older than 6 months.
- 2. From the list found in the previous search, identify the top 5 companies. If the information is spread across multiple sources, consolidate the findings. Consider factors like market capitalization, revenue growth, and innovation pipeline.
- 3. Review the results from the previous agent to list the top 5 AI companies and their key characteristics that support their growth potential.
